EXPERIENCES

Founder

Jan. 2025 - Present

Contractual.ca

- Designed and developed a full-stack platform that empowers small contractors to compete for government contracts by aggregating, filtering, and intelligently ranking opportunities from Canada's largest public procurement databases
- Helped contractors and companies score over **\$600,000** in government contracts with the Canadian government
- Engineered a RAG-enabled semantic search system and trained predictive models on **1M+** awarded contracts to surface insights and forecast contract pricing

Founding Team

December 2023 - Present

Hackathons Canada

Toronto, ON

- Spearheaded fundraising efforts, securing over **\$45,000** in sponsorships and in-kind contributions to support national hackathons and technology events across Canada.
- Led a team of 11 University and High school students, ensuring successful execution of large-scale events.
- Managed social media campaigns with **25M+** views and a **3,500+** member tech community.
- Ran events for over **700+** High School and University students, managing over **20** volunteers

PROJECTS

nirekshetty.com/projects.html

Voyager-O | *React, Python, Profile* | **Global Nominee @ NASA Space Apps** —

October 2024

AI-powered tool for analyzing space data, providing automated insights and visualizations to streamline scientific research

- Built in under 48 hours, this project won Global Nominee at the world's largest hackathon, NASA Space Apps
- Renders all **5,849** planets in the NASA exoplanet archive and over **2 billion** stars
- Used shaders to limit GPU latency and Planck's law to provide accurate color depictions

Summa | *React, Flask, NLP, Google Cloud Run* | **Best Finance Hack @ Gen AI Genesis** —

April 2025

AI-powered investor matchmaking platform leveraging NLP for precise founder-investor compatibility

- Developed a full-stack platform with a React/TailwindCSS frontend and a Flask backend hosted on Google Cloud Run
- Implemented NLP-based vector embeddings and cosine similarity to rank investor-founder compatibility
- Processed and structured data from **10,000+** investors, optimizing for retrieval and analysis

AGEile | *Swift, Python, React, PostgreSQL*, —

Jan. 2024 - Present

AGEile is an IOS app designed to isolate fall predictors in seniors

- Built an IOS app with a Swift tech stack, linked to a ESP32 controlled hardware interface to monitor the gait patterns of seniors through a feature extraction algorithm hosted on Google Cloud

AWARDS AND ACHIEVEMENTS

- Silver Award, IOAI Canada (National Selection)
- NASA Space Apps Global Nominee (93.5k participants)
- CCC Junior Group 2 Honour Roll (73/75) Test Score
- 5x Waterloo Distinction Winner (Pascal, Gauss, etc.)
- Gen AI Genesis *Best Finance Hack*
- Honour Roll Student at Brebeuf College School
- Silver+, Ontario Band Association (Invitation to Nationals)

FORMAL EDUCATION

Brebeuf College School

Toronto, Ontario *GPA: 3.9*

- Extracurriculars:** STEAM Council, Trivia Team, Robotics, Baseball, Frisbee, Senior Band, Science Fair
- Course Load:** AP Calculus AB, AP Calculus BC, AP English, AP Computer Science, AP Physics

SKILLS

Languages: Python, Java, C/C++, JavaScript/TypeScript, Swift, Kotlin, HTML, CSS/SCSS

DevOps Tools: Linux, Caddy, Nginx, Traefik, Docker (Swarm, Compose, Buildx), Cloudflare, WireGuard, GitHub Actions

Tools/Frameworks: Django, FastAPI, Flask, React, Svelte, Astro, Gin, Celery, Postman, Tailscale, Git

Databases: PostgreSQL (PostGIS), SQLite, RocksDB, Valkey, Redis, MongoDB

Specializations: Backend Web Development, AI + Machine Learning, iOS Mobile Development
